

Transylvania County Public School District in North Carolina Awards Leading Edge Technology Contract to ProActive School

For immediate release

Brevard, North Carolina, May 22, 2008. Transylvania County Public School District in North Carolina announced today that ProActive School was awarded a data management contract that will interface to the North Carolina Department of Public Instruction State-Wide Applications named NCWISE and provide the District with web-based, roles-based access and communication management services.

The contract provides Transylvania County Public School District the ability to integrate into a single place ALL the State-level NCWISE data along with their existing applications data at the District and School levels without purchasing additional hardware, software or telecommunications. Transylvania County Public School District anticipates resource reallocation and improved Parental communications through the elimination of redundant data entry, avoiding time consuming & expensive operations issues and using integrated notification service. In addition to the resource reallocation, the web-based services will provide a Parent Portal for parents and students to access school information like grades, attendance, classes, documents, calendars, forms and more while the Teacher Portal that will allow District staff to work more resourcefully and communicate with parents more efficiently. Don Gauger, CEO of ProActive School stated that the services provided to Transylvania County Public Schools, "... will make available critical education information easily accessible in a customizable, roles-based service model for the administrators, principals, teachers, students and parents."

Significant in the District's award decision was that ProActive School's services provides secure, off-site hosting, integration into existing applications through SIF®; interface to production NC/DPI NCWISE applications data; integrated notification services via email, text message, multi-lingual voice and website banners; integrated calendaring for classes and events; automated forms management; staff information; school reports repository; and document management capabilities. ProActive School also provides on-going professional services in support for all application services.

Having completed the needs assessment prior to the award, the company anticipates implementation of the services within few weeks. "Some unique aspects of our services," Gauger continued, "...are relatively low cost, quick implementation and services flexibility that allows customization to fit most School or District needs."

About ProActive School

Headquartered in Reston, VA, ProActive School is a leading provider of School Data Management services built on the School Interoperability Framework (SIF). ProActive School's application services enable real-time integration of existing applications, standardization of disparate school data and propagation of event-driven communications through a secure, easy-to-use, web-based user interface.
