# State Reporting Services (SRS)

## for PowerSchool® Districts

**ProActive School**
*Education Data Management*

## Making it easy to identify, locate and correct data issues in PowerSchool®

With ProActive School SRS, State Reporting data published by PowerSchool® is validated against the exact set of standards specified by your State Department of Education. This validation ensures compliance with State Reporting requirements, and virtually eliminates errors in State Reporting.

### PowerSchool® ISV Partner

ProActive School is a PowerSchool ISV Partner.

### SRS - Improving State Reporting for PowerSchool® Districts

ProActive School *SRS* addresses the specific requirements of Districts with respect to PowerSchool® State Reporting. Designed by ProActive School in consultation with PowerSchool®, *SRS* combines proprietary monitoring, analytical, and reporting tools, with expert consulting services. This combination delivers a complete solution to consistently provide timely, complete and accurate State Reporting.

### SRS - Service Offerings for State Reporting

*SRS* is packaged in three different models so you pay only for the support that your District needs. All models are supported by ProActive School's automated data publishing compliance tool, *dpC for PowerSchool®.* Regardless of the model selected, you'll be guided to the exact location in PowerSchool® to correct data issues related to State Reporting.

- **Bi-Annual Audits:** Audits of the District PowerSchool® State Reporting setup and data publishing compliance performed twice annually

- **Virtual Support:** Bi-Annual Audit services PLUS direct access to *dpC for PowerSchool®* by District personnel to self-manage State Reporting defect identification and correction processes

- **Advisory Support:** Virtual Support services PLUS on-going support from *dpC for PowerSchool®* Data Specialists to assist District personnel with the management of State Reporting defect identification and correction processes
